Story

Roman inscriptional letterforms served as the basis of Atava by type designer Delve Withrington. That foundational origin point is most evident in the classic proportions of the capital letters, the flared stroke ends, the wedge-shape terminals and exit strokes echoing the use of a chisel. Upon close inspection, subtle variations resulting from its hand-crafted nature are revealed as many shapes and elements were often purposefully re-drawn in production instead of simply being copied between glyphs or employing staid algorithmic interpolation.

At text sizes, Atava's ample x-height and familiar proportions provide a comfortable reading experience. However, the personality of Atava is most apparent in display sizes — it evokes a sense of mystery and wonder, and its more artful nature is revealed. Some features of Atava may call to mind typefaces like Berthold Wolpe's Albertus, Hermann Zapf's Optima, or Ed Benguiat's namesake type design. Similarly, Atava occupies its own calm center space where imagination and delight foster curiosity and encourage further creative exploration.

The Atava family is comprised of five upright weights plus companion italics and all with a large compliment of glyphs for advanced typography and broad language support. Atava can be relied upon to perform well in both print and digital mediums. Use its lighter and heavier weights for display work including logos, headlines, product packaging, and more. •!•

Design & Production: Delve Withrington
Special thanks to Dave Bailey for his insight and support

Atava has 10 styles: Light, Light Italic, Regular, Italic, Medium, Medium Italic, Semibold, Semibold Italic, Bold, Bold Italic.

Formats Available: OpenType (OTF), Truetype (TTF), and Web-fonts (WOFF, WOFF2)

Licenses for Desktop, Webfonts, and App Fonts are available for purchase at [DelveFonts.com](https://delvefonts.com). Contact Delve Fonts for additional licensing options like eBooks, SAAS, and Broadcast.
